

## YOUTH SOCCER GOAL WITH ANTI-TIP PROTECTOR -EASYTEC-

SKU: 30074-E-GB-OV

- 5 x 2 m
- Safety net hooks
- Color: natural aluminum
- Weight in ground frame

### PRODUCT DESCRIPTION

#### YOUTH SOCCER GOAL WITH ANTI-TILT DEVICE

The **youth soccer goal with anti-tilt device** -easytec- has a **size of 5 x 2 m** and is equipped with weights in the ground frame. The goal frame and the ground frame are made of oval profiles (100 x 120 mm) of aluminum. The youth soccer goal is **welded in one piece** and has additional welded corner connectors for stabilization. Combined with the strong welds, you get a youth soccer goal of **very high quality**. The youth goal 5 x 2 m with counterweight in the ground frame also comes with net hoops made of round tube profiles, resulting in the following projections: 0.80 m at the top and 1.50 m at the bottom.

The youth soccer goal with anti-tilt device -easytec- complies with the current requirements of FIFA as well as DFB (German Football Association). It is manufactured according to DIN standard 748 and is **TÜV certified** (TÜV - German Association for Technical Inspection).

**Note:** Goal net not included.

## Flat safety net hooks

The safety net hooks used with the **easytec net suspension system** are made of plastic and have an **extremely flat design**. As a result, they protrude only slightly from the goal frame profile. The goal net is attached quickly and easily with the help of the net hooks. On the ground frame, the net is further mounted with the help of a tensioning rope or alternatively with the help of a rod system (not included). For this purpose, the youth soccer goal is equipped with welded eyelets.

## Youth soccer goal with anti-tilt device - weights in the ground frame

The youth soccer goal is **secured against tipping** by a counterweight integrated in the ground frame. In order for the goal to be mobile on the sports field despite the anti-tilt device, it also has two foamed air wheels with a diameter of 250. These special wheels have optimal running characteristics. The youth soccer goal is **mobile according to its width**.

## Tilt secured goals directly from the manufacturer

Buy youth soccer goal with anti-tilt device directly from the manufacturer! With us, you are guaranteed to find the perfect soccer goal for your purpose: Whether youth goals (optionally with screwed anti-tilt device or counterweight in the ground frame), soccer goals in the size 7.32 x 2.44 m, training goals, recreational goals or even mini goals - there is something for everyone! In our products, as a manufacturer of sports equipment, we attach great importance to long durability and excellent quality. Just choose the suitable goal in our online store and let us convince you! You are also welcome to find out more about the technical details of our goals for youth soccer.
